Note # 45

Please refer note . The tender has been published.

However, as per the above note, it is to be ensured that " Common use goods / service of requisite specification, quality and delivery period being tendered/procured are not available for purchase at this point of time under Government e-marketplace (GeM)" In this context it is submitted that the items being procured are available on GEM portal. However, due to practical issues in procurements on GEM, the rate contract through open tender mode of procurement was proposed and approved in note #27 & 36 respectively.

Since the items are available on GEM portal which will become contradictory to the aforementioned statement.

Therefore, it is proposed that approval for cancelation of this tender may please be accorded and subsequently a fresh proposal of required items shall be put up again through GEM portal.

Submitted for approval for cancellation of tender please.
