Note No. #77**120 केवीए यूपीएस एनआईटी को रद्द करने हेतु /Cancellation of the 120 KVA UPS NIT**

कृपया सीएचक्यू द्वारा जारी संलग्न विद्युत नीति का उल्लेख करें। परिपत्र विपरीत में रखा गया है।

सीएचक्यू द्वारा जारी नई विद्युत नीति (सीएनएस परिपत्र 3/2021) के अनुसार,

1. प्रत्येक स्थान पर पावर फीड के दो स्रोत की आवश्यकता होती है और प्रत्येक स्रोत में लोड शेयरिंग मोड में यूपीएस के दो सेट होने चाहिए।
2. उच्च क्षमता वाले यूपीएस नहीं होने चाहिए हैं।

चूंकि डीजीसीए की मंजूरी से नए तकनीकी भवन को चालू किया जाएगा, इसलिए बिजली नीति का अनुपालन जरूरी है। वर्तमान निविदा प्रक्रिया में नई विद्युत नीति के दिशा-निर्देशों का अनुपालन नहीं हो रहा है। वर्तमान में चल रहे एनआईटी को रद्द करने और नई बिजली नीति के अनुरूप नए सिरे से एनआईटी तैयार करने की सिफारिश करता हूँ।

Please refer to the attached power policy issued by the CHQ. The circular is placed in reverse. As per the New Power Policy (CNS Circular 3/2021) issued by CHQ,

1. Each location requires two sources of power feed and each source must have two sets of UPS in load sharing mode.
2. There should not be high capacity UPS.

Since the new technical building will be commissioned with the approval of DGCA, compliance with the power policy is necessary.

The guidelines of the new power policy are not being followed in the current tendering process. I recommend cancellation of the existing NIT and re-preparation of NITs in line with the new power policy.

अनुमोदन के लिए प्रस्तुत हैं।

Note No. #78

Reference is made to above noting.

Tender processing for UPS is on which was opened on 13th April 2021.

Due delay in C & E works , Tender technical evaluation was slowed down to avoid capitalisation issue.

In the meantime , CHQ has issued a new power policy where in Two sets of UPS to be treated as one source and each CNS facility to be fed with Two source.

It is also recommended to avoid Higher capacity UPS

Hence Four nos of UPS to be procured with reduced capacity Zone wise with revised capacity and specification. Fresh AA & ES will be done after estimation.

Since the present tender is for two nos higher capacity UPS for entire ATS complex, this is a non compliance to Power policy and it may create issue during Commissioning approval by DGCA.

Civil has given PDC as Feb 2022 for new ATS complex and UPS will be procured and Installed by January 2022 for installation of CNS equipment and parallel operation.

Hence it is recommended to cancel the tender process and to go for fresh tender with compliance to CHQ circular.

APD is competent Authority to cancel the Tender process as AA & ES was accorded by APD vide note No 22.
