Conclusion of Committee

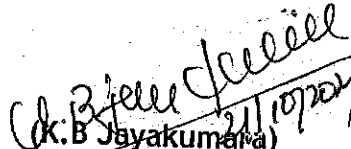

Based on the technical scrutiny of all the participated 6(six) bidders, it is noticed that none of the bidders satisfy the stipulated conditions of the RFP. For an instance as per the RFP mainly Clause no Section-II, 4.4B (b) (i) The machinery and equipment required for the work is not met by all the bidders and in respect of M/s. PR & CO Engineers, they have not submitted the bid documents cost quoting the reasons that they have the MSME registration.

However, as per the Government of India Gazette Notification dated 23.03.2012, the exemption is limited only to goods and services and not for the work. Hence, this bidder is also considered as non-responsive.

In view of the above findings, the technical committee opined to go for short term tender (15 days) as per the NHAI Policy matter dated 02.08.2016, since the nature of work is of emergent nature and the stretch has developed many potholes.
