In to F&A comments at pg no: 18/N, following points to be noted

- a) As per Section-C of tender document, under clause no: 8 " it is mentioned that items wise evaluation will be done based on the net rate after discount ". In line with that evaluation is made based on the NET RATE after considering the discount offered by the bidder's. Further the offered discount shall be maintained throughout the currency of the contract as per tender condition.
- b) The bid is open for all the authorized retail outlets of various oil manufacturing companies (IOCL, BPCL, HPCL, etc.,) .So the retail selling price of petrol & diesel at retail outlets shall vary based on the oil manufacturing offered price to that retail outlet. Hence NET RATE after discount is considered for evaluation.
