Reason of rejection of not acceptable bidders:**[2/20] M/S. ARK ENGINEERINGS:**

The bidder's working capital, as per Form F-10 (INR 5,00,000 for FY 2023-2024), and the required working capital for the subject work was Rs. 7.82 Lakhs. Hence, the working capital of the bidder was found to be inadequate. Initially, the bidder submitted a soft copy of the Line of Credit (Form F-9), and upon asking for hard copy (P/356) of the same it was observed that there was a discrepancy of dates. The soft copy was dated 11.04.2024, while the hard copy received was dated 27.11.2024, which is after the bid submission deadline. As the date of the original hard copy of Form F-9 received is subsequent to the bid due date, the bidder's submission has been commercially rejected due to non-compliance with the Financial Bid Evaluation Criteria (BEC).

[8/20] M/S. KIRSHA CIVIL CONSTRUCTION PRIVATE LIMITED:

The bidder's working capital, as per Form F-10 (INR 2,15,681.00 for FY 2023-2024) and the required working capital for the subject work was Rs. 7.82 Lakhs. Hence, the working capital of the bidder was found to be inadequate. Furthermore, the bidder failed to submit a Line of Credit for the required working capital amount, as specified in the tender under the F-9 format, before the final bid due date. As a result, the bid has been commercially rejected due to non-compliance with the Financial Bid Evaluation Criteria (BEC)..
