However, none of these documents was attested by a Chartered Engineer and Notary Public as required in the authentication criteria of the BEC.

NOTE SHEET

Ref: GAIL/BBSR/C&P/25-26/09

28.07.2025

Subject: Tender Committee Recommendation for Price Bid Opening (PBO) – AMC for Civil Work of Various Stations Under DAPL & BAPL Odisha Region for 02 Years. Against NIC tender ref.: (2025_GAIL_236108_1 Dated: 23.05.2025).

Therefore, a query was raised to the bidder for submission of the requisite experience documents meeting the BEC, with clear cross-reference and duly authenticated by both a Chartered Engineer and Notary Public.

In response bidder submitted completion certificate against aforementioned W/Os at (m), (r) & (s). However none of the documents submitted in reply to query were still not attested by a Chartered Engineer and Notary Public. Therefore, the bidder failed to meet the authentication criteria of the technical BEC and is thus considered technically not acceptable.

2.2 Reason for bid consideration of M/s. Swastik Fabrication for either Part A or Part B:

As per the TBA, the bidder has submitted a work order and completion certificate for LOA No. 5700001034, with an executed value of Rs. 86,88,243.24. As per the BEC, the minimum executed contract value required for qualification with a single work order is as follows:

For Part A: Rs. 72.92 lakhs

For Part B: Rs. 59.60 lakhs

For both parts on a cumulative basis: Rs. 132.52 lakhs

From the above, it is clear that the bidder meets the technical criteria for either Part A or Part B individually, but does not qualify for both parts on a cumulative basis.

Similarly, as per the CBA, the average annual turnover of the bidder over the preceding three years is Rs. 64,71,947, which exceeds the minimum required value for both parts individually. However, for qualification on a cumulative basis for both parts, the required turnover is Rs. 82.7 lakhs, which the bidder does not meet.
