

Note # 22

It is to apprise that after concurrence of committee members and approval obtained for the following on this e-file vide Note# 7-13 & as per the RFQ Point no. 18.4 i.e. The Authority shall inform the applicants about the result of application evaluation by uploading on the web portal giving 7 days' time for any objections.

The result of the RFQ for Pre-Qualification for the Empanelment of Agencies for Implementing Maintenance Works to be taken up on Risk and Cost of the Concessionaire/Contractor was uploaded on etenders.gov.in.

K.G. Gupta Infrastructure Pvt. Ltd. had applied for Class-B and was found to be Non-Responsive. Elsamex Maintenance Services Ltd. had applied for Class-A and was found to be Non-Responsive too. Therefore, only a single bidder i.e. S and P Infrastructure Developers Pvt. Ltd. who applied for Class-C was found to be Responsive. Only a single bid for one category i.e. Class-C was found to be responsive while for other categories A,B and D, no bidder was found to be responsive.

Both the non responsive bidders i.e. Elsamex Maintenance Services Ltd and M/s K.G. Gupta Infrastructure Pvt. Ltd submitted representations within 7 days to reconsider the bidding in light of RFQ and documents submitted with BID.

both the representations were examined by the committee constituted vide [Note# 3](#) for evaluation of bids and concurrence of committee members on minutes have been obtained vide [Note #17-21](#)

As per the re-evaluation vide Note#17, K.G. Gupta Infrastructure Pvt. Ltd. is found to be Responsive for the category of Class-B. The Revised result is as follows:

S.No.	Name Bidder	of Cost RFQ document (Rs. 10,000/-)	of Certificate of Correctness Yes/No	Qualified for opening Technical Bid Responsive /Non-Responsive	Remarks
-------	-------------	-------------------------------------	--------------------------------------	--	---------

1.	S and P Infrastructure Developers Pvt. Ltd.	Yes. Submitted vide Pg. No. 01-02 of documents submitted.	Yes. Submitted vide Pg. No. 76-77 of documents submitted.	Responsive Applied for Class-C
2.	K.G. Gupta Infrastructure Pvt. Ltd.	Yes. Submitted vide Pg. No. 01 of documents submitted.	Yes. Submitted vide Pg. No. 39 of documents submitted.	Responsive Applied for Class-B
3.	Elsamex Maintenance Services Ltd.	Yes. Submitted vide Pg. No. 01 of documents submitted.	Yes. Submitted vide Pg. No. 98 of documents submitted.	Non-Responsive Applied for Class-A As per clause 3.1(c) of Section-2

Since only two responsive bidders have qualified, and for two different classes, specifically Class B and Class C, it means that only 2 bidders will be available for Class C and D works and only single bidder will be available for class B works. No bidder has qualified for Class A. With only one bidder available for Class B and 2 bidders for class C and D, the process lacks adequate competition. This can potentially lead to issues such as lower efficiency, or suboptimal quality of maintenance work, as there is no competitive pressure on the bidders. As this process is for the empanelment of agencies for upcoming maintenance works to be taken up on risk and cost of the concessionaire/contractor in the future and not for any individual project, if only these two agencies are empanelled NHAI will have very limited options to award all the maintenance works to be taken up on risk and cost of the concessionaire/contractor coming up in the next 2 years.

To encourage transparency, wider participation, foster healthy competition, and ultimately ensure better value, efficiency, and quality in the execution of the maintenance works across all categories, including the currently unrepresented Class A, committee has proposed to re-invite the bids and intimate the reply of objections received to the concerned.

Therefore, as per the recommendations of committee submitted for approval of for the following:

1. To intimate the reply of objections received to the concerned parties as per the revised result.
2. For re-inviting the bids for pre-qualification for empanelment of agencies for implementation of maintenance works to be undertaken at the risk and cost of the concessionaire/contractor for all the

categories

submitted please.
