

Sub: Proposal for retendering the Bid no. 2025/NPCIL/240161_1

**Ref: Bid no. 2025/NPCIL/240161_1 Response to the L-1 bidders
reply letter regarding price negotiation.**

**Name of Work: Installing additional CCTV cameras for
strengthening coverage inside Kaiga Township.**

During the review of CST it was observed that the bid price of L-1 bidder M/s Shanmukh Electrical Works was on lower side (-)14.79% overall w.r.t. NPCIL estimate.

However, quoted prices by L-1 bidder for item no. 11 & 21 were AHR (+35.59 % & +102.02 % respectively). In view of the same it was proposed to negotiate the prices for the AHR items.

In reply to NPCIL's proposal for negotiation M/s Shanmukh Electrical Works has stated that party cannot offer further discount in the quoted prices as they are already on the lower side by (-)14.79% overall from the departmental prices.

Party has also noted that they have understood the scope of the work and agreed to carry out the work as per the specific terms & conditions of the contract at their quoted rates.

Considering the deviation w.r.t. estimation for item no. 11 & 21 being very high, it is proposed to retender the bid with same technical specification & estimation. However following similar works criterion are proposed during the retendering.

1. Maintenance of Communication equipment /system in any power or process industry or organization

AND/ OR

2. Installation and/or Commissioning of Communication equipment /system in any power or process industry or organization

AND/ OR

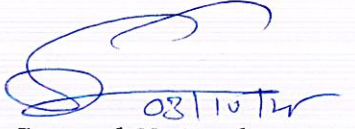

3. Assistance for above works

AND/ OR

4. Installation and/or Commissioning of CCTV equipment /system

Sl. No.1,2 & 3 of the above similar works are as per the list of similar works issued by HQ wide circular no. NPCIL/EDCMM/WORKS/2023/M/129 Dtd. 26.05.2023 under Sl. No. 4b. , 4d & 4e respectively. However approval for Sl. No. 4 of the similar works criteria approval from competent authority exists.

Competent authority is requested to accord approval for the proposal and Head (CTC) is requested to initiate the necessary formalities to complete the process of tendering with prevailing technical specs & estimation but with revised similar works criteria.
