Subject: Closure of Tender RFP-9

The scope of activities under RFP-9 has been substantially modified to align with the stringent delivery schedules stipulated in the tender. Further, the concerned technical teams have proposed design updates during a recent Director, IISU/VSSC review meeting. These changes necessitate revisions to the RFP, including modifications in quantities, scope of work, and commercial terms, thereby altering the fundamental nature of the existing RFP. Accordingly, the current tender is hereby closed.
