Subject: Repairing, Rubber coating & Testing of Cation Tank-1 & Cation Tank- 2 of DM Plant at CCPP CPF Gandhar, ONGC Ankleshwar Asset

Subject: Repairing, Rubber coating & Testing of Cation Tank-1 & Cation Tank- 2 of DM Plant at CCPP CPF Gandhar, ONGC Ankleshwar Asset.

CCPP, CPF Gandhar has been installed with GT of installed capacity 22 MW, ST of installed capacity 12 MW and HRSG of capacity 64.8 T/Hr. Apart from these, auxiliary Systems like DM plant, Cooling Water System, CTID etc. were installed for normal operations of plant.

DM plant installed in 1998 is used for demineralization of raw water and Steam is generated from HRSG Boiler. This steam is further used in Steam Turbine for generation of Electricity. DM plant has two streams (one running and one standby) for production of DM water. Each stream has a capacity of 19.8 m³/hr. It consists of Pressure Filter, Strong Acid Cation Tank, Degasser, Strong Base Anion Bed, Mixed Bed Tank and DM water storage Tank. Strong acids and Strong bases are used in Cation tank and Anion Tank for regeneration of resins.

A leakage has been observed from one of the flange bases of Cation tank -02. After inspection, it is found that internal pipe support and rubber coating inside tank is damaged due to acidic environment inside the tank and aging effect. Also, a minor leakage and evidence of damage from another cation tank - 01 has been observed.

Since commissioning of the DM Plant, no major repair work has been carried out on these cation tanks.

Rubber Coating inside the cation tank & associated pipe lines has to be done to avoid damage of the tank & pipes due to acidic environment inside the tanks.

DM water is being consumed inside the CPF plant for the cooling of compressors, in battery banks and also supplied to other nearby installations of ONGC like GGS, EPS etc.

Estimate: Based on received budgetary quotation (attached at annexure-01, 02 and 03) from M/s Krish Engineering, M/s Shreeji Engineering and M/s Shloka Enterprise, estimate sheet is attached at annexure-04. Total estimate comes to the tune of **Rs. 9,76,726/-** (Rupees Nine Lakhs Seventy-Six Thousand Seven Hundred and Twenty-Six only) including other charges for "**Repairing, Rubber coating & Testing of Cation Tank-1 & Cation Tank- 2 of DM Plant at CCPP CPF Gandhar, ONGC Ankleshwar Asset**". Scope of the work for the above job has been attached as Annexure -5

Submitted for:

1. A/A and ES may please be accorded for **Rs. 9,76,726/-**(Rupees Nine Lakhs Seventy-Six Thousand Seven Hundred and Twenty-Six only) including other charges for "**Repairing, Rubber coating & Testing of Cation Tank-1 & Cation Tank- 2 of DM Plant at CCPP CPF Gandhar, ONGC Ankleshwar Asset**" under item no 24.1(a) & 10.1 of BDP 2015.
2. PR 2010156907 has been created based on estimate sheet and released at 01 level which may please be released at further levels 02, C4 & L4.
