

Sub:- Cancellation and Reinvitation of GePNIC Tender No. 2025_ONGC_261205_1 / ONGC e-Tender No. K16SL25006 – Engaging PMC for Shifting of LP Gas Compressor Project at Rajahmundry Asset

The above tender was floated on the GePNIC portal on 01.01.2026 with the bid closing date of 12.01.2026 at 03:00 PM. It has come to our notice that bidders are encountering issues while uploading the BOQ, as the file is not validating and is failing to upload on the portal.

Upon examination, it has been observed that the BOQ file may be corrupted and non-functional. Since the GePNIC portal does not permit replacement of the BOQ at this stage, the tender is required to be cancelled and re-tendered. The same is proposed.

In the re-tender, all other documents, terms, and conditions shall remain unchanged, with the only modification being the replacement of the BOQ file with a validated version. The contents of BOQ(Price format) will also remain the same. Consequently, only the tender number will change, while all other details will remain the same.

The new Tender Details
