Dear Sir/Madam,

With reference to the trailing mail, the department user has complained that while decrypt the tender the error message shown from the system as "**Decryption Error found for some of the documents**" against the bidder (**Jaabilli Constructions Private Limited**) having Bid ID: **983436** in the Technical Opening stage.

The same could not be resolved against the tender ID: **2026_NHAI_262633_1**.

This could be due to the following reasons:

1. The document might not have been transferred properly during transit.
2. There could have been network issues at the client's end during the upload.
3. The uploaded document may have been damaged or was not in a readable format at the time of upload.

Hence, the user department may take further action.

Regards,
