4.3 In this regard, Para 12.2.6 (i) of SCM Manual Part 1 Procurement inter alia stipulates as under:

Quote:

Post tender clarifications should be avoided, as far as possible. However, in case, after opening of techno-commercial bids, it is observed that clarifications/confirmations/ deficient documents from the bidders on important techno-commercial aspects are necessary for enhancing competition in the tender, seeking one time clarification from bidders is allowed. However, after first round clarification, if the available techno-commercially acceptable bidders are less than three for the tender (where there is no grouping) or less than three in any of the groups of the tender and enhanced competition in tender is envisaged through further clarification, one more round of clarification can be sought for all the groups. If contract is to be awarded to multiple bidders (say N), then second round of clarification may be sought only if the number of techno-commercially acceptable bidders is less than N+2 bidders. In CPD cases, seeking third round clarifications (wherever competition is less than three techno-commercially acceptable bidders and not covered under the policy guideline) dispensation may be allowed with the approval of EO Committee.

Unquote:

Since both the participated bidders have emerged as techno-commercially acceptable after second round of clarifications in the instant case and there is no rejection of any offer, accordingly, Price bids shall be opened on the same day after approval by the CPA.
