Dear Sir,

Thank you for your response and for discussing the matter with the GePNIC team.

However, we would like to respectfully clarify that the Login ID ajayy@amphenol-in.com is presently not accessible or operational from our side for participation in the tender process.

As per our company's approved GePNIC registration and internal compliance process, only the following login ID is officially registered and authorized for tender participation on behalf of Amphenol Interconnect India Pvt. Ltd.:

GEP ID: ACABEPS9007270A

Registered Login ID: vbhavsar@amphenol-in.com

The same can also be verified from our successful receipt of ONGC Mumbai Tender ID: 2026_ONGC_276122_1, which was correctly published on the above registered login ID.

In the present case, although the tender may have been published against ajayy@amphenol-in.com, the said ID is not available to us for operational use. Hence, it is practically not possible for us to:

1. Access/login to the tender portal through the said ID
2. Map and register the company DSC against that login
3. Complete bid submission and authorization formalities
4. Ensure compliance with our company's internal approval and audit procedures

Therefore, we humbly request your good office to kindly consider cancellation and re-publication of the tender on our officially registered and operational GePNIC Login ID: vbhavsar@amphenol-in.com, so that we may participate in the tender process without any technical or compliance issues.

We assure you of our prompt participation immediately upon republication on the correct registered login ID.

We sincerely request your kind consideration and support in this matter.

Thanking you.

MERAJ
